

Torridon
Primary School

Reading

Our main focus for this half term will be developing children's ability to combine a range of reading skills in order to successfully answer a broad range of questions on a text. This will include learning linked to 'Horowitz Horror' by Anthony Horowitz.

Writing

In writing, we will focus on narrative writing. The children will write a range of pieces, including an introduction which captures the reader's interest, a description of a setting and an action sequence. Our focus will be on vocabulary choices and sentence structure.

Mathematics

All groups will continue to work on decimals and percentages. Children should aim to learn core facts of equivalence such as $0.25 = 25\% = 1/4$. They will also learn how to find equivalence between any given fractions, percentages and decimals.

Meet the Team!

Team Leader: Richard Newsome

Teaching Staff: Caroline Henry-Ledgister,
Holly Lovell and Craige Young

Support Staff: Liz Baldwin, Abbygale Cox,
Maleka Cushnie, Yvonne Johnson and
Sabrina Saccuzzo.

Supporting Your Child's Learning at Home

Spending time exploring the following website would support your child's learning:

http://www.bbc.co.uk/schools/primaryhistory/world_war2/children_at_war/teachers_resources.shtml

Year Six Spring 1 2019

Science

We will be studying the topic of electricity this half term. We will look at how components can be connected to form a series circuit and learn to use standard symbol notation to draw diagrams. We will then explore how adding additional components affects the brightness of a bulb.

Topic

In Topic, we will focus on art and computing skills linked to our horror focus. The children will use iMovie software to create trailers based on the story of 'Bath Night'. In Art, the children will create a story scene using a range of materials to create parts.

Notes

Please could you **send in any shoeboxes** you may have at home so that we can use these for our art learning.
