

Torridon
Primary School

Nursery Spring 1

All About Food

During this half term we will be reading 'Handa's Surprise', 'Little Red Hen' and 'Supertato'.

Physical Development

We will explore a healthy range of foods and understand the need for a variety of different foods.

We will explore different group games and observe the effect of exercise on our bodies.

Children will be encouraged to use pencils and pens with increasing control.

Personal, Social & Emotional Development

We will encourage children to have the responsibility of carrying out small tasks in the nursery. We will encourage children to talk about their own feelings and begin to recognise other people's feelings. We will explore different role-play linked to our story and encourage children to play together to develop ideas.

Communication & Language

We will be encouraging the children to talk about different foods and identify foods they like and why.

We will encourage the children to follow recipes and instruction related to cooking and baking. Children will be encouraged to recall a past event in order.

Literacy

We will be describing settings, main story events and characters.

Children will experience making labels, writing recipes and shopping lists.

We will also be practising writing our names and have a go at writing other words.

This term we will continue learning the sounds of some letters and the children will be encouraged to have a go at forming the letters.

Maths

We will be exploring shapes during Maths week (The Festival of Triangles).

We will explore simple weight and capacity vocabulary during our cooking and baking activities. Children will explore everyday language related to money.

Understanding the World

We will be exploring different types of food. Children will be able to explore growing their own food in our garden. We will explore different occupations through role-play such as a chef or a shop keeper. Children will be able to use the Nursery equipment to take photographs.

Expressive and Creative Arts

Children will be able to explore different painting and printing techniques. We will use various construction materials and make our own food packaging. We will make character puppets and make 3D fruits. We will create simple movements in response to music.
